

source/slice_sampler.h

```
graph TD; A[source/slice_sampler.h] --> B[stdbool.h]; A --> C[stdint.h];
```

The diagram illustrates the header file dependencies for `source/slice_sampler.h`. It is represented as a tree structure where the parent node at the top is `source/slice_sampler.h`. Two blue arrows point downwards from this parent node to two child nodes: `stdbool.h` on the left and `stdint.h` on the right. The parent node is shaded gray, while the child nodes are white with gray borders.
